KAUNG HEIN SET (THOMAS)

JUNIOR SOC ANALYST | CYBERSECURITY ANALYST

Myanmar | +95 095005037 | k.set@wlv.ac.uk

PROFESSIONAL SUMMARY

Cybersecurity undergraduate with hands-on experience building a Windows SOC home lab using Wazuh SIEM, Sysmon, CrowdSec, pfSense and Active Directory. Investigated simulated brute-force attacks, suspicious processes and network traffic; documented indicators of compromise through malware and packet analysis.

TECHNICAL SKILLS

Security monitoring: Wazuh SIEM, Sysmon, CrowdSec, Windows Event Logs, custom detection rules

Systems and networking: Windows Server 2022, Active Directory, Linux, pfSense, VirtualBox, TCP/IP

Investigation and testing: Wireshark, CyberChef, olevba, Autopsy, Ghidra, GDB, Nmap, Metasploit

CERTIFICATIONS AND TRAINING

CompTIA Security+ | Google Cybersecurity | SOC Analyst | Malware Analysis

IBM Ethical Hacking with Open Source Tools | Penetration Testing, Threat Hunting and Cryptography

Exam preparation: INE eJPT (Junior Penetration Tester) - preparing for the exam.

SELECTED CYBERSECURITY PROJECTS

SOC Home Lab | 2026 - Present

- Built a segmented VirtualBox lab with pfSense, Windows Server 2022 Active Directory, a domain-joined Windows 10 workstation and a T-Pot DMZ honeypot.
- Collected Windows security and Sysmon events in Wazuh; investigated failed logons and simulated RDP brute-force activity.
- Developed and tested a Wazuh rule for PowerShell spawning cmd.exe; confirmed CrowdSec IP blocking during lab attacks.

Malicious VBA Document Analysis | 2026

- Used olevba, strings and CyberChef to decode macros, reconstruct payload retrieval and WMI execution, and extract indicators of compromise.

Network Traffic Forensics | 2025 - 2026

- Analyzed PCAP files in Wireshark to identify port scans, failed login patterns and suspicious FTP/HTTP traffic; correlated IPs, protocols and transferred artifacts.

Penetration Testing Lab | 2025

- Enumerated SSH, SMB, Apache and Tomcat on an intentionally vulnerable Linux host; assessed weak credentials and privilege-escalation paths.

PROFESSIONAL EXPERIENCE

Video Editor | Brand Artistry, Singapore (Remote) | Nov 2024 - Sep 2025

- Produced device setup tutorials and presentation videos with clear technical callouts and visual documentation.

Program Support Assistant | SafeNet Education Consultancy, Myanmar (Remote) | Feb 2023 - Nov 2024

- Supported virtual meetings and technical troubleshooting; maintained reports, schedules and digital records for international partners.

EDUCATION

Bachelor in Cyber Security (in progress) | Auston University | May 2026 - Present

Higher Diploma in Infrastructure and Networks | Auston University | 2024 - Apr 2026

ADDITIONAL TRAINING

Forage job simulations: PwC US Cyber Security Consulting; Mastercard Cybersecurity; Deloitte Australia Cyber.

Languages: Burmese; English (advanced).
